COX VISITOR IN WASHINGTON

PLAN RECEPTION FOR DEMOCRATIC NOMINEE, CONFERENCE SUNDAY

Significance Attached to Candidate's Appointment to Meet President Wilson at White House ---Conferences Also Arranged With Victor Murdock And Representative Flood.

By LEE ELLMAKER.

WASHINGTON, July 17.—Governor James M. Cox, of Ohio, Democratic candidate for the presidency is scheduled to arrive here early this afternoon for a conference with President Wilson at the White House tomorrow.

Washington has planned to give the governor a whole-hearted non-partisan reception. City officials and residents of the District of Columbia will join with the large number of Democratic leaders who have arrived in the city during the past few days of welcoming him. Members of all factions of the party are here, and a voluminous calling list will be presented at the home of Judge Timothy T. Ansberry, where Governor Cox will stay while in the city.

Aside from his engagement with the president, set for 10:30 Sunday morning, the governor has two appointments, both of his own choosing. One is with Victor Murdock, chairman of the federal trade commission, with whom he is expected to talk over the question of the high cost of living and determine the course he will take on this question during the campaign.

The other is with Representative Flood, of Virginia, head of the Democratic congressional committee and one of the Cox supporters at the San Francisco convention. Senator Glass, also of Virginia, and representative of the administration at San Francisco is not expected to be in the city during the Cox visit.

To Define Stand on League

While every possible moment of the candidate's time here will be devoted to the furtherance of interests of the campaign it is expected that most of the conferences at the Ansberry home will be in a general nature.

Campaign plans will be taken up in detail following the meeting of the Democratic national committee. The meeting with Representative Flood will be devoted to weighing chances for Democratic control in the house.

Governor Cox has expressed his views on the league of nations. The White House has intimated that nothing but harmony is to be expected on this score. Democratic leaders here believe, however, that considerable discussion is in the offing if a definite program of reservations is to be approved at the Sunday conference.

Governor Cox expressed a desire to unite every faction of the Democratic party. An out and out approval of the league of nations would not work to that end, leaders contend, and the line of conjunction but not the interpretative reservations approved by President Wilson and the views of "irreconcilables" may be difficult to draw in a forenoon.

G. O. P. LEADERS INTERESTED IN OUTCOME OF COX'S VISIT

By A. O. HAYWARD

MARION, O. July 17.—The interests of Republican leaders here are centered today on the outcome of the conference to be held tomorrow between President Wilson and Governor Cox, the Democratic nominee.

There is much speculation as to whether the two will reach an agreement on the campaign issues. President Wilson's friends are insisting that the league of nations shall be the paramount issue of the Democratic campaign. It is assumed that they are speaking for the president. Admittedly President Wilson insisted that the Democratic platform should carry a vindication of his league and a demand for its ratification without "nullifying" reservations.

Governor Cox has announced two reservations that he desires to see written into the draft of the league covenant. He says they are designed to safeguard the United States against being drawn into war without action by congress.

League experts here say there is

little substantive difference between the league reservations proposed by Governor Cox and those written by Senator Lodge which incurred the condemnation of President Wilson.

It is said by Republican leaders that should Governor Cox yield to President Wilson on support of the league covenant as presented to the senate he will lose many Democratic votes and alienate the anti-Wilson leaders who brought about his nomination over the administration candidate, William G. McAdoo. These leaders are Murphy, New York; Brennan, Chicago and Taggart, Indiana, and others.

If Governor Cox should break with President Wilson by failing to accept all the Wilsonian ideas he will incur the active and bitter hostility of the president and his powerful following in the Democratic party.

The Sunday meeting between the president and Governor Cox, Republicans say, is critical and marks a crisis in the presidential campaign. Its

Between 10,000 and 15,000 People Will Test Strength of Candidates at Picnic in Los Angeles, California, Today.

LOS ANGELES, July 17.—What is probably to be the first test of strength by Ohioans of its presidential candidates, Gov. James M. Cox and Senator Warren G. Harding, will be made here this afternoon when a "straw" vote of between 10,000 and 15,000 people will be taken at the Ohio state picnic being held today at Sycamore Grove.

Ideal weather marked the day for the picnic which was expected to be the biggest yet held in southern California.

The added interest is given by the political situation and the fact that it is what the Ohioans here term a "ratification" picnic to celebrate Ohio's "signal honor in giving to the nation its two prominent presidential candidates," and to "ratify" those candidates.

Col. John J. Stedman, for years a leader in Republican politics in Ohio, will offer the Harding resolutions of ratification and Frank Bering, secretary of the Ohio Society, here will offer resolutions endorsing Governor Cox.

LOS ANGELES IS RECOVERING FROM TREMBLER

Five Quake Shocks, All of Short Duration, Frighten People.

LITTLE DAMAGE CAUSED

Old Chimneys Fall, Cornices and Tower Ornaments Dislodged.

LOS ANGELES, CAL., July 17.—Following five earthquake shocks, each of short duration, that vibrated under Los Angeles and immediate vicinity yesterday, the situation in the city today had resumed normal conditions. The trembles were confined to a zone of comparatively few miles, and cutting towns and cities did not detect the disturbance, reports indicate. In the city itself some small damage was done, too insignificant for monetary estimate of loss, according to City Building Supt. J. J. Backus. What damage there was consisted chiefly of such superficials as old chimneys falling, insecurely placed cornices and tower ornaments being dislodged in the breaking of seams in brick walls. A few minor injuries resulted to persons, but these mostly were from accidents due to precipitate flight or fear.

The first vibration passed at 10:08 a. m. The second at 1:27 p. m. and the third at about 1:29, the fourth at 4:55 p. m. and the fifth at 6:13 p. m. None lasted longer than a few seconds, the principal characteristic being suddenness as after a blow.

The chief effect of the trembles was not in their material aspects, but in their psychological effects. Several thousand workers in offices and factories, chiefly women, were so nervous they did not want to return to their desks or tasks after the first quake and were excused in many instances until Monday.

Following the two succeeding shocks there was an even greater scramble to get out of buildings and in some cases entire floors were vacated with the office doors locked.

Possibly the worst damaged building in the city was the Chester Inn, North Main street. The two chimneys dropped off, one going through the skylight. There is a five-foot crack in one of the walls and another crack an inch and a half wide in another.

Governor Cox should break with President Wilson by failing to accept all the Wilsonian ideas he will incur the active and bitter hostility of the president and his powerful following in the Democratic party.

The Sunday meeting between the president and Governor Cox, Republicans say, is critical and marks a crisis in the presidential campaign. Its

Lloyd George Expresses Fear German Government May Not Last Long.

By NEWTON C. PARKE

SPA, Belgium, July 17.—"We have accomplished much during the Spa conference but it would have been better if the United States had acted as an impartial participant," declared Premier Lloyd George before leaving for London today. The British premier is apparently well satisfied with the result of the discussions, which came to an end last night when the Germans signed the allied coal protocol pledging themselves to deliver to the allies 2,000,000 tons of coal monthly for a specified time.

When Mr. Lloyd George was asked where the next conference of the allied foreign ministers would be held, he laughed as he replied:

"Washington would be a good place but they tell me it is pretty hot there in summer. I should prefer Beauville myself."

Premier Lloyd George believes that the German government will have a more difficult time enforcing the disarmament protocol than the coal protocol. Both call for quick action on the part of the Berlin government as both are effective at once.

The premier said he believed that the present government at Berlin is absolutely sincere in its determination to execute the treaty of Versailles but expressed some fears that the present German government might not last long.

"At any rate we shall get the coal even if we have to go get it ourselves," added the British statesman.

Four main subjects were taken up during the conference.

COX VISITOR IN WASHINGTON

PLAN RECEPTION FOR DEMOCRATIC NOMINEE; CONFERENCE SUNDAY

Significance Attached to Candidate's Appointment to Meet President Wilson at White House ---Conferences Also Arranged With Victor Murdock And Representative Flood.

By LEE ELLMAKER.

WASHINGTON, July 17.—Governor James M. Cox, of Ohio, Democratic candidate for the presidency is scheduled to arrive here early this afternoon for a conference with President Wilson at the White House tomorrow.

Washington has planned to give the governor a whole-hearted non-partisan reception. City officials and residents of the District of Columbia will join with the large number of Democratic leaders who have arrived in the city during the past few days of welcoming him. Members of all factions of the party are here, and a voluminous calling list will be presented at the home of Judge Timothy T. Ansberry, where Governor Cox will stay while in the city.

Aside from his engagement with the president, set for 10:30 Sunday morning, the governor has two appointments, both of his own choosing. One is with Victor Murdock, chairman of the federal trade commission, with whom he is expected to talk over the question of the high cost of living and determine the course he will take on this question during the campaign.

The other is with Representative Flood, of Virginia, head of the Democratic congressional committee and one of the Cox supporters at the San Francisco convention. Senator Glass, also of Virginia, and representative of the administration at San Francisco is not expected to be in the city during the Cox visit.

To Define Stand on League

While every possible moment of the candidate's time here will be devoted to the furtherance of interests of the campaign it is expected that most of the conferences at the Ansberry home will be in a general nature.

Campaign plans will be taken up in detail following the meeting of the Democratic national committee. The meeting with Representative Flood will be devoted to weighing chances for Democratic control in the house.

Governor Cox has expressed his views on the league of nations. The White House has intimated that nothing but harmony is to be expected on this score. Democratic leaders here believe, however, that considerable discussion is in the offing if a definite program of reservations is to be approved at the Sunday conference.

Governor Cox expressed a desire to unite every nation of the Democratic party. An out and out approval of the league of nations would not work to that end, leaders contend, and the line of conjunction but not the interpretative reservations approved by President Wilson and the views of "irreconcilables" may be difficult to draw in a forenoon.

G. O. P. LEADERS INTERESTED IN OUTCOME OF COX'S VISIT

By A. O. HAYWARD

MARION, O., July 17.—The interests of Republican leaders here are centered today on the outcome of the conference to be held tomorrow between President Wilson and Governor Cox, the Democratic nominee.

There is much speculation as to whether the two will reach an agreement on the campaign issues. President Wilson's friends are insisting that the league of nations shall be the paramount issue of the Democratic campaign. It is assumed that they are speaking for the president. Admittedly President Wilson insisted that the Democratic platform should carry a vindication of his league and a demand for its ratification without "qualifying" reservations.

Governor Cox has announced two reservations that he desires to see written into the draft of the league covenant. He says they are designed to safeguard the United States against being drawn into war without action by congress.

League experts here say there is

little substantive difference between the league reservations proposed by Governor Cox and those written by Senator Lodge which incurred the condemnation of President Wilson.

It is said by Republican leaders that should Governor Cox yield to President Wilson on support of the league covenant as presented to the senate he will lose many Democratic votes and alienate the anti-Wilson leaders who brought about his nomination over the administration candidate, William G. McAdoo. These leaders are Murphy, New York; Brennan, Chicago and Taggart, Indiana, and others.

If Governor Cox should break with President Wilson by failing to accept all the Wilsonian ideas he will incur the active and bitter hostility of the president and his powerful following in the Democratic party.

The Sunday meeting between the president and Governor Cox, Republicans say, is critical and marks a crisis in the presidential campaign. Its

OHIOANS TO TAKE 'STRAW' VOTE ON HARDING, COX

Between 10,000 and 15,000

People Will Test Strength of Candidates at Picnic in Los Angeles, California, Today.

LOS ANGELES, July 17.—What is probably to be the first test of strength by Ohioans of its presidential candidates, Gov. James M. Cox and Senator Warren G. Harding, will be made here this afternoon when a "straw" vote of between 10,000 and 15,000 people will be taken at the Ohio state picnic being held today at Sycamore Grove.

Ideal weather marked the day for the picnic which was expected to be the biggest yet held in southern Cal-

ifornia and the Ohio Society, here will offer resolutions endorsing Governor Cox.

Kenyon Warren, president of the Federated Ohio Societies of Southern California, comprising many thousand members, and Lieut. Frank M. Bering, secretary, will preside at the picnic program, which includes a number of political speeches by Ohioans formerly identified with Buckeye state poli-

cians.

A number of people from this vicinity are planning to attend the services.

LOS ANGELES IS RECOVERING FROM TREMBLER

Five Quake Shocks, All of Short Duration, Frighten People.

LITTLE DAMAGE CAUSED Old Chimneys Fall, Cornices and Tower Ornaments Dislodged.

LOS ANGELES, CAL., July 17.—Following five earthquake shocks, each of short duration, that vibrated under Los Angeles and immediate vicinity yesterday, the situation in the city today had resumed normal conditions.

The tremblers were confined to a zone of comparatively few miles, and outlying towns and cities did not detect the disturbance, reports indicate.

In the city itself some small damage was done, too insignificant for monetary estimate of loss, according to City Building Supt. J. J. Backus.

What damage there was consisted chiefly of such superficials as old chimneys falling, insecurely placed cornices and tower ornaments being dislodged in the breaking of seams in brick walls. A few minor injuries resulted to persons, but these mostly were from accidents due to precipitate flight or fear.

The first vibration passed at 10:03 a. m. The second at 1:27 p. m. and the third at about 1:29, the fourth at 4:55 p. m. and the fifth at 6:13 p. m. None lasted longer than a few seconds, the principal characteristic being suddenness as after a blow.

The chief effect of the tremblers was not in their material aspects, but in their psychological effects.

Several thousand workers in offices and factories, chiefly women, were so nervous they did not want to return to their desks or tasks after the first quake and were excused in many instances until Monday.

Following the two succeeding shocks there was an even greater scramble to get out of buildings and in some cases entire floors were vacant with the office doors locked.

Possibly the worst damaged building in the city was the Chester Inn, North Main street. The two chimneys dropped off, one going through the skylight. There is a five-foot crack in one of the walls and another crack an inch and a half wide in another.

COACH OF CORNELL VARSITY CREW DEAD

AUBURN, N. Y., July 17.—Charles Courtney, coach of the Cornell varsity crew and one of the best known teachers of oarsmen in the United States, died today at his summer home at Union Springs, N. Y. Only meager reports of his death have been received and the cause is unknown.

Courtney came to Cornell as an assistant coach in 1884 and became permanent coach in 1889. His crews have been among the strongest in the United States and have won many inter-collegiate regattas.

OPERATE CARS IN CHICAGO DESPITE STRIKE

CHICAGO, July 17.—While plans were being made for a conference this afternoon between representatives of the striking maintenance men and the street car companies, William Fish, chief of the surface lines, announced this morning that 1,611 cars were in operation and that a few more hours would see normal transportation efficiency restored, even during the "rush hours." It was officially reported that all power sub-stations

WELLS' VESSEL TO DOCK TODAY

Chamber of Commerce Delegates Returns from Paris.

W. E. Wells, general manager of the Homer Laughlin China company, who has been in Europe, attending an international conference of Chambers of Commerce, will arrive in New York late Saturday, on the Red Star liner Finland according to word received here this morning. He is expected home Sunday night or early Monday.

Mr. Wells left early in June to attend the Paris meeting as the representative of the East Liverpool Chamber of Commerce. Following the adjournment of the convention with a number of the other delegates he visited the battlefields of northern France and witnessed the results of the bombardment of Verdun and of Rethiem. From France he crossed the English channel to England sailing from Southampton on Thursday July 8.

The pottery manufacturer will be the honored guest at two receptions held here within the next few weeks. One of these will be given by the East Liverpool Chamber of Commerce and the other by the United States Potters' Association of which he is a former president. No date has been set for either affair although it was stated Saturday that the Chamber of Commerce meeting would probably be

Instructors From 13 Counties Will Hold Annual Session in East Liverpool Nov. 26 and 27.

The annual meeting of the Eastern Ohio Teachers Association, comprising school instructors of 13 counties in the eastern section of the state, will be held in this city during the Thanksgiving vacation, Friday and Saturday, November 26 and 27, this year.

This was the announcement made Saturday by Superintendent of Schools F. P. Geiger following his return from Cambridge, where he attended a meeting of the executive committee and officers of the association this week.

There will be an afternoon and evening sessions on Friday and a morning session on Saturday. There will be no Friday morning nor Saturday afternoon meetings, this being allowed the visitors for traveling.

The Eastern Ohio Teachers' Association has a membership of approximately 4,000, taking in the schools of the following counties: Belmont, Carroll, Columbiana, Coshocton, Harrison, Guernsey, Jefferson, Monroe, Morgan, Muskingum, Noble, Tuscarawas and Washington.

Last year's convention was held at Marietta. Approximately 1,200 superintendents, principals and instructors are expected to attend this meeting, Supt. Geiger announced Saturday.

The present officers of the Eastern Ohio Teachers Association include:

President, W. G. Wolfe, county superintendent of schools, Cambridge.

Vice president, Supt. R. C. Maston, Martins Ferry.

Secretary, Miss Olive E. skirt, East Liverpool.

Treasurer, Principal J. C. Mason, of Zanesville.

Executive committee, Supt. F. P. Geiger, East Liverpool, chairman; M. C. Smith, county superintendent, Marietta, and D. A. Watson, district superintendent, Chillicothe, Ohio.

GREAT BRITAIN IS SATISFIED WITH SPA MEET

SPA, Belgium, July 17.—"We have accomplished much during the Spa conference but it would have been better if the United States had acted as an impartial participant," declared Premier Lloyd George before leaving for London today. The British premier was apparently well satisfied with the result of the discussions, which came to an end last night when the Germans signed the allied coal protocol pledging themselves to deliver to the allies 2,000,000 tons of coal monthly for a specified time.

When Mr. Lloyd George was asked where the next conference of the allied foreign ministers would be held, he laughed as he replied:

"Washington would be a good place but they tell me it is pretty hot there in summer. I should prefer Deauville myself."

Premier Lloyd George believes that the German government will have a more difficult time enforcing the armament protocol than the coal protocol. Both call for quick action on the part of the Berlin government but both are effective at once.

The premier said he believed that the present government at Berlin is absolutely sincere in its determination to execute the treaty of Versailles but expressed some fears that the present German government might not last long.

"At any rate we shall get the coal even if we have to go get it ourselves" added the British statesman.

Four main subjects were taken up during the conference.

CLAIM WOMAN TOOK PART IN HOLD-UPS

COLUMBUS, July 17.—That she took part in three holdups within the past three weeks and was one of three women who stabbed Samuel Pickens, 45, North Market master, here this week, is the claim the police make today against Mrs. Hazel Mack, 27, colored, who was placed under arrest.

Pickens' condition is serious. Confined in a hospital, he is suffering from five wounds. One pierced his right lung and another entered his abdomen. The women robbed him of \$47 before stabbing him.

King Feisal ignored the ultimatum and a French has been sent to occupy Damascus. Accompanied by tanks and airplanes, another French force is moving upon Aleppo and has seized Rojek.

General Gouraud, the French commander in Syria, has 80,000 troops at his disposal.

The Arabs are said to have 100,000 rifles. There are four Arab divisions concentrated near Damascus.

The French, according to the Daily Express, accuse King Feisal of stirring up trouble against the French forces of occupation at Tyre and Sidon.

The Daily Express says that the French intend to make French colonies and the French language obligatory in the districts covered by the

LIGHT VOTE ON BOND PROPOSAL

Little Interest Manifested in Special Bond Issue Election.

Out of a registration of more than 800, only 37 votes had been cast in Chester at 9:15 o'clock this morning in the special bond issue election, called for the purpose of securing ratification or rejection of the proposition to issue \$100,000 in bonds for a new county court house to replace the structure destroyed by fire on March 20, last.

At Precinct No. 1, at the city hall, but 15 votes had been cast. At Precinct No. 2, lower Chester, the election officials reported that only 10 electors had visited the polls. Twelve votes had been polled at Precinct No. 3.

Reports from other parts of Hancock county indicates a light vote. Very little interest is being shown in the outcome of the election. Only in New Cumberland does there promise to be a large vote polled as residents of the county seat are anxious to secure ratification of the proposition.

The polls opened shortly after 6 a. m., and are scheduled to close at 12:15 p. m. It is believed that the result of the election will be known by 9 o'clock in view of the fact that little time will be required to complete the count.

The prediction was made in Chester this morning that the bond issue would fail to carry as a three-fifths vote is necessary for ratification.

MACHINERY BREAKDOWN AT PUMPING STATION

BIBLE SCHOOL OUTING AT ROCK SPRINGS

Owing to a break down of part of the machinery used in connection with the pumping operations at the South Side Water Works pumping station, the water pressure here has been poor for the past couple of days. In some sections of the city the water has been off at certain times of the day.

New parts have been secured to replace the broken machinery and are being installed. It is believed that the pumping operations will be resumed again on regular schedule within the next few days. The water supply to the two Chester potteries was completely cut off at intervals during the break down in order to conserve the supply for the domestic consumers.

SHIP CLAY VIA RIVER TO PITTSBURG MARKET

Probably for the first time since the building of the Chester branch of the Panhandle railroad, clay mined in Hancock county this week was ship-

ped to Pittsburgh by boat. Prior to the completion of the railroad on this side of the river considerable clay and clay products of Hancock county were shipped by water.

The West Virginia Clay company, located near New Cumberland, this week sent two large barges, filled with clay, to the Pittsburgh district. Owing to the rail tie-up, mills which have been securing their clay shipments in cars recently arranged to have deliveries made by water. The loaded barges were towed to Pittsburgh by the tow boat, "Old Reliable."

N. W. Ballantine, manager of the West Virginia Fire Clay company, has secured permission from the railroad company to construct a crossing at his plant. A tipple has been built at the river bank from which place the barges will be loaded.

It is the intention of the company to continue the use of the river for shipping even after the railroad situation is relieved. Water shipments can be made sooner than deliveries by rail and at much cheaper rate, it is declared.

MISS SARA CUNNINGHAM HOSTESS TO CLASS

Miss Sara Cunningham, of Fairview avenue, was hostess to the members of Class No. 12 of the First Methodist Episcopal church Thursday evening, this being the regular monthly business meeting of the class.

Officers, who were elected for the ensuing six months, include the following: Eleanor Severs, president; Hannah Dehner, vice-president; Grace Morgan, secretary and Gertrude Pugh, treasurer.

Arrangements were made by the members of the class for a "weiner sizzle" which will be held Tuesday evening, July 20. Each member of the class is permitted to invite one friend. The party will meet at the church at 7:15 and be taken to the picnic grounds in automobiles. Mrs. H. N. Newell will act as chaperone.

URGES LONG TERM LOANS TO FARMERS

Long term loans to the farmers of the United States to place their farms on a profitable basis was advocated by R. B. Thompson of Salem, editor of a farm and dairy journal, at the closing session of the Ohio Bankers' association convention at Cedar Point Friday. He stated that the farm-to-city movement was proving a menace to the country's welfare and should be checked.

CHARLES C. ASHBAUGH, of the West End Pottery company, and T. A. McNicol, of the T. A. McNicol Pottery company, form the committee on arrangements. A number of golf matches have been arranged. Some will motor to Bedford, while others will use the train. Business can be forgotten for the holiday period.

Close Two Factories in Japan.

It is noted that porcelain manufacturers in Japan take a pretty serious view of present business depression, as a result of which they have considered it advisable to close down their factories at Seto and in the Aichi Prefecture for three months even though it throws 1,000 men out of employment.

Pottery Manufacturers' Outing.

The regular summer outing of the pottery manufacturers of this district will be held this year at Bedford Springs, Pa., and continue for three days. The "crowd" will leave Pittsburgh next Thursday and remain at the mountain resort until the following Sunday. In former years the holiday was taken at Atlantic City.

However, it is not likely this pottery will be ready for operation until the latter

results, therefore, are being awaited with the keenest interest by all Republican leaders who are connected with the Harding headquarters.

Senator Warren G. Harding, the Republican presidential nominee, has been house-bound by work during the past week. He is losing much of the healthy tan he accumulated during the days in Washington following his nomination when he sought relaxation on the golf links. His friends are urging him to break away again from the treadmill of work and get out into the open in order to build up and conserve his strength. He may follow their advice for a few days next week. The golf links at Mansfield, a few miles away, are calling him.

Assurances of support for the Republican ticket from Progressives are coming daily to the senate. Paul A. Ewert, of Joplin, Mo., and Frank T. Ellison, of Rochester, N. Y., are among the latest to write him. In reply to a telegram from Ellison that stated that at a meeting of Progressives the Republican ticket was endorsed, the senator wrote:

"I desire to send my grateful appreciation of your assuring message which is but additional evidence that the Republican party this year is united in a great purpose of rescuing this country from its present deplorable condition, insuring the return to a stable peace basis, and the establishment of a thoroughly American policy that thinks of our own people first."

To Allen B. Jaynes and Albert M. Simes, leading Arizona Republicans, the senator sent the following message: "It will be a great satisfaction to me next November to see your seat in the Republican column. A united party and united effort should insure this result."

times tacked on top of the defender. Each time Captain Adams, the Resolute's skipper, skillfully slipped away by bearing off.

When the starting signal was sounded both were to the leeward of the line with the Resolute heading away. The Resolute immediately tacked on her weather quarter, both the Resolute and Shamrock heading for the line on starboard tack. Resolute went by Shamrock and crossed the line seconds in the lead and fifty yards to windward. It was a complete victory for Adams.

Resolute began almost immediately to crawl out to windward while footling almost as fast as Shamrock.

Fifteen minutes after the start Resolute was a quarter of a mile to windward and holding Shamrock well.

At 1:05 p. m., both yachts were still holding the starboard tack with Resolute to windward and Shamrock a trifle ahead but unable to cross Resolute's bow.

At 1:15 both yachts were still heading for the Long Island shore on starboard tack. Resolute had increased her windward advantage to one-third of a mile.

Shamrock continually sagged off to leeward in order to outfoot her rival but although she forged somewhat she was too far to leeward to profit by it.

At 2:15 both yachts were still sailing very slowly as the breeze was less than five knots. Forty minutes after the start Resolute was leading by a quarter of a mile, being to windward but somewhat astern of Shamrock.

Shamrock's steering continued bad. She continually lost distance on account of it. Shamrock is much the tenderer boat, heeling five degrees more to the light breeze than Resolute. Shamrock kept heading up and falling off a couple of points each time, due to her steering.

East Liverpool Man Qualifies

as Assistant Pharmacist.

CARD OF THANKS

Leroy J. Wise, this city, qualified as an assistant pharmacist at an examination conducted recently by the Pennsylvania State Board of Pharmacists, according to an announcement Saturday.

Wise was one of 112 out of a field of 214 persons who applied for assistant pharmacist's certificates to pass the examination. The local man is a junior in the School of Pharmacy at the University of Pittsburgh, Pittsburgh, Pa. He is employed at the Jesse D. Holloway drug store, this city.

Four hundred and thirty-four applicants, the largest to appear before the Pennsylvania Pharmacy board, took the recent examination. Of this number 187 received pharmacist certificates and 112, assistant pharmacist certificates.

May Revise Sanitary Code.

Revision of the city sanitary code was discussed at a conference of officials of the board of health at city hall Friday night.

The present code, health authorities state, is obsolete and should be revised to keep pace with the city's growth and needs. J. T. Croxall, president of the health board; Dr. C. H. Bailey, city health commissioner, and Perry L. Rigby, city solicitor, will re-compile the regulations and present them before the board of health at a future meeting.

U. S. TENNIS STARS WIN

WIMBLEDON, Eng., July 17.—William M. Johnston of California and William T. Tilden II, of Philadelphia, today defeated J. C. Parke and A. R. Kingscote, of Great Britain, in their double match for the right to challenge Australia for the Davis cup.

The Buckeye Laundry company was organized in 1906 by C. H. and H. A. Mulligan.

The scores were 9-6, 6-3 and 6-4.

URGES LONG TERM LOANS TO FARMERS

The regular summer outing of the pottery manufacturers of this district will be held this year at Bedford Springs, Pa., and continue for three days. The "crowd" will leave Pittsburgh next Thursday and remain at the mountain resort until the following Sunday. In former years the holiday was taken at Atlantic City.

Charles C. Ashbaugh, of the West End Pottery company, and T. A. McNicol, of the T. A. McNicol Pottery company, form the committee on arrangements. A number of golf matches have been arranged. Some will motor to Bedford, while others will use the train. Business cares will be forgotten for the holiday period.

Break Ground for New Plant.

Ground has been broken for the new plant of the Massillon China company at Massillon. There will be over 2,000 square yards of concrete work in this plant. The contract for this will be awarded within a fortnight. In fact contracts are being let as construction proceeds. By this plan the company is in a position to take advantage of the market. However, it is not likely this pottery will be ready for operation until the fall.

One rule of the Brotherhood is to the effect that even the official organ of the Brotherhood is not permitted to disclose the real action of the annual convention as the sessions continue from day to day.

Delegates who have returned from the Brotherhood convention do not deny that a request will be made to have the generalware wage scale reopened for further discussion, yet no official announcement is made at this time that such a request will be made.

MACHINERY BREAKDOWN AT PUMPING STATION

Owing to a break down of part of the machinery used in connection with the pumping operations at the South Side Water Works pumping station, the water pressure here has been poor for the past couple of days. In some sections of the city the water has been off at certain times of the day.

New parts have been secured to replace the broken machinery and are being installed. It is believed that the pumping operations will be resumed again on regular schedule within the next few days. The water supply to the two Chester potteries was completely cut off at intervals during the break down in order to conserve the supply for the domestic consumers.

POTTERY NEWS

Florentine Pottery Co., of Cambridge, Ohio, F. C. Harben, secretary of the corporation has applied to the commissioner of securities of Ohio for a license to deal in its own securities. Additional finances thus obtained will be used in the expansion of the business.

To Buy Ceramics Aboard

For the purpose of buying ceramics and other lines, Gimble Bros. of Philadelphia have opened a series of offices in China, Japan and also one in Manila. The firm is a large buyer of oriental pottery, but at the same time makes a feature of American dinnerware in its stores, the bulk of which comes from the East Liverpool districts.

Close Two Factories in Japan.

It is noted that porcelain manufacturers in Japan take a pretty serious view of present business depression, as a result of which they have considered it advisable to close down their factories at Seto and in the Aichi Prefecture for three months even though it throws 1,000 men out of employment.

FIND BODY OF MISSING GIRL

Miss Florence Kirkpatrick, of Bergholz, Ends Life in River.

Mystery surrounding the disappearance of Miss Florence Kirkpatrick, aged 17, of Bergholz, from the home of Mrs. Thomas McCullough in Steubenville Wednesday, was cleared up yesterday with the finding of the girl's body in the Ohio river near the bathing beach across from Steubenville.

The body was found by George Baker, an employ of dam No. 10, who, with a number of other men had been searching the river since Wednesday. The body was taken to Bergholz yesterday afternoon.

A search in the girl's room at the McCullough residence in Steubenville, where she stayed while attending business college, following her disappearance, disclosed the following note: "I probably failed in my studies and cannot face you people again. The only way to end it all is by death. I am going to drown myself."

The girl's father learned yesterday at the business college in Steubenville that she had not failed, but was progressing with her work. It is believed that tireless study had caused nervous breakdown. The girl, it is said, had confided to several of her schoolmates that she was deeply discouraged and that she planned to kill herself. She told one girl, it is claimed, that she would jump from the Steubenville bridge if it wasn't so high.

MRS. WILLIAM LOWND'S HOSTESS AT RECEPTION

Mrs. William Lownd's, formerly Miss Dora Kinkade, was hostess to a number of her friends at an informal reception Thursday evening at her home in Washington avenue, in honor of Mrs. William Colston, of Cleveland. Mrs. Colston was formerly Miss Wynona Carson, of Wellsville.

Singing, music and dancing were diversions of the evening. The program was featured by a specialty dance by Miss Eleanor McKim. At the close of the affair, a three-course luncheon was served by the hostess.

The following guests were present: Misses Catherine Kerr, Nancy McCord, Gladys Arnold, Sara Ross, Margaret Kelly, Eleanor McKim, Flora Quayle and Eileen Burris.

SECOND BOY SCOUT TROOP ORGANIZED

With the completion of plans for the organization of Troop No. 2, Boy Scouts here last night, interest in scout affairs is rapidly increasing. The city now boasts two troops.

Members of No. 1 troop, with the new scouts of the second troop, attended the meeting which was held in the community house of the American Sheet and Tin Plate plant, Wells avenue.

Proceeding the regular meeting, the new scouts, officiated by members of the first troop, under the direction of Assistant Scoutmaster Earl Heakin, staged several drill exercises in the open field near the creek. Following the drill examinations for admittance to the scout troop were held at the community house.

Nine local lads passed the tests, making them eligible to the "tenderfoot" squad of the troop. They are: Harry Cooks, Tony Riville, William Kenny, Francis Connor, Pete Johnson, John Cox, William Payne, Charles Schmidt and Tom Phillips. The tests are given under the supervision of Earl Heakin, Paul Gessell and Leonard Keay.

The next meeting of the scouts will be held Monday evening in the community house at which time several more tenderfoot scouts will be admitted to membership.

U. P. Church Picnic

The annual congregational and Sunday school picnic of the United Presbyterian church will be held this afternoon and evening in the "creek bottom."

Outdoor contests and games will feature the afternoon program. A picnic supper at 6 o'clock will be served.

Charged With Speeding.

Robert Baur, of East Liverpool, employed by a local manufacturing concern as truck driver, was arrested yesterday afternoon charged with exceeding the speed limit. He will likely be arraigned before Mayor Ingram today.

P. H. C. Officers Installed

Officers were installed at a regular meeting of members of Fidelity Circle, No. 43, P. H. C., in their lodge rooms in Fifth and Main streets last evening.

Following the installation ceremony and business session, a social hour was enjoyed, the affair concluding with the serving of refreshments.

Hard Game for P. H. C.

The Wellsville P. H. C. baseball club faces one of the hardest games on its schedule this afternoon. The local tossers are booked to meet the Follansbee Pastime club at Follansbee, W. Va.

The local club will play today with the services of Yocom, regular third baseman. Lowe has been signed by the Circles to take Yocom's place on the hot corner for this engagement.

The Follansbee club has strengthened considerably for today's game. They have engaged the services of Stunn, Woods, Welch and Bounds, all of Wheeling.

RIVER NEWS

Passenger-carrying packets plying the upper Ohio river are competing with the railroads for this season's excursionists, according to passenger lists on steamers docking at the East Liverpool wharfboat.

The packets of the Liberty Transit company's fleet are carrying larger passenger lists this season than ever before in the company's history, it is said. Pamphlets containing views of picturesque spots along the Ohio valley as glimpsed from the decks of river steamers have been issued by the Liberty line to stimulate excursionist trade.

Special provisions have been made this year for passenger traffic. Chefs have been placed aboard the river craft and the tables set on both down river and upstream trips are creating favorable comment, it is declared.

Saving Coal Saves Money

There's a wealth of proof to show that your home may be thoroughly comfortable at a third or a half less fuel than you have been using. The Caloric Pipeless Furnace is a remarkable fuel conserving. Many say it saves half. Here is just one sample letter taken at random out of thousands which the manufacturers receive from pleased Caloric owners:

"I am heating very comfortably seven rooms and not using any more fuel than I did with a double heater, heating only two rooms.—S. P. Bissell."

PIPELESS CALORIC FURNACE
Original Patented Pipeless Furnace

Over seventy-six thousand homes, many of them in this state, have found this furnace the economical, common-sense method of keeping comfortable. They bought on a guarantee of real fuel saving and perfect satisfaction, and the Caloric made good.

One register delivers all the heat from the fuel directly into your living rooms and draws out the cold air, insuring an abundance of balmy, moist warmth right where you want it. The cellar is just right for the storage of perishable products.

The Caloric can be installed in a day. It is a triumph of engineering skill that embodies many patented features which have made it the leader and which are not found in imitations. Come in and see this wonderful furnace. We will tell you frankly whether it is adapted to your home. If we say it is, we will give you our personal guarantee that it will make good or we will take it out. Come in and talk it over.

RIVER NEWS

Passenger-carrying packets plying the upper Ohio river are competing with the railroads for this season's excursionists, according to passenger lists on steamers docking at the East Liverpool wharfboat.

The packets of the Liberty Transit company's fleet are carrying larger passenger lists this season than ever before in the company's history, it is said. Pamphlets containing views of picturesque spots along the Ohio valley as glimpsed from the decks of river steamers have been issued by the Liberty line to stimulate excursionist trade.

Special provisions have been made this year for passenger traffic. Chefs have been placed aboard the river craft and the tables set on both down river and upstream trips are creating favorable comment, it is declared.

Saving Coal Saves Money

There's a wealth of proof to show that your home may be thoroughly comfortable at a third or a half less fuel than you have been using. The Caloric Pipeless Furnace is a remarkable fuel conservser. Many say it saves half. Here is just one sample letter taken at random out of thousands which the manufacturers receive from pleased Caloric owners:

"I am heating very comfortably seven rooms and not using any more fuel than I did with a double heater, heating only two rooms.—S. P. Skinner."

PIPELESS CALORIC FURNACE

The Original Patented Pipeless Furnace

Over seventy-six thousand homes, many of them in this state, have found this furnace the economical, common-sense method of keeping comfortable. They bought on a guarantee of real fuel savings and perfect satisfaction, and the Caloric made good.

One register delivers all the heat from the fuel directly into your living rooms and draws out the cold air, insuring an abundance of balmy, moist warmth right where you want it. The cellar is just right for the storage of perishable products.

The Caloric can be installed in a day. It is a triumph of engineering skill that enabled many patented features which have made it the leader and which are not found in imitations. Come in and see this wonderful furnace. We will tell you frankly whether it is adapted to your home. If we say it is, we will give you our personal guarantee that it will make good or we will take it out. Come in and talk it over.

AMERICAN CUP DEFENDER READY.

With the confidence of her crew unshaken and her broken halyard, which cost her the first race of the series, repaired, the Resolute, America's cup defender, is ready for the second test against Shamrock IV, Sir Thomas Lipton's entry in the international yacht races. Although the American boat must win three races in order to retain possession of the cup which has been held by the New York Yacht club since 1851, her admirers are confident of the outcome of the series. And even with one race to the credit of the British sloop, the Resolute will enter today's contest on even terms in the betting.

After making the poorest start ever made by a Lipton boat since the Irishman has been attempting to win back for Great Britain the trophy cup, the Shamrock IV crossed the line a winner in the first race of the year's series. The British boat was accorded the honors as a result of an accident. Victory seemed certain for the American yacht when her rigging collapsed.

Sir Thomas Lipton, whose sportsmanship characteristics have made him a favorite with the American people, was reluctant to take the credit for a victory won on what he termed a fluke. He was willing to have the race sailed over, but the New York Yacht club refused to consider such a protest. This stand was taken because it was recalled that the first Shamrock was forced to withdraw by a broken sail in the race against the Columbia, the American sloop, in 1899.

Americans are confident that the Resolute will be the winner in today's race. A defective piece of construction cost the New York Yacht club the initial contest, while the Shamrock stood the strain of wet canvas and thrashing sea. But the series is far from the finish. The green boat has the advantage of one victory to her credit, but must win two more contests out of a possible maximum of four in order that Sir Thomas Lipton's dream of almost a lifetime may be realized. With ordinary weather, the prediction of the United States weather bureau for today's contest, prevailing, the Resolute should prove her supremacy.

MUSIC AND WORK.

A good many experiments have been made during the last few years with the effects of music upon mind and body. In hospitals and sanatoriums it has been found usually of beneficial effect, and particularly so with the mental sufferers. Brisk music, vigorous and highly rhythmic, is found to stimulate, while soft and dreamy music, of the nocturne or lullaby type, soothes, quiets, often induces sleep.

Industrial plants have been taking up the idea with a good deal of success. The piano used in the recreation room at the lunch hour for dancing or for chorus singing has always had a brightening effect upon the workers.

It has remained for a great plant in Delaware to carry this idea to an extreme. A piano has been installed in the wrapping department, where the girls are on piece-work, and it is in use continuously during working hours. Production in this department has increased 20 per cent. And the employees have a better time while doing more work. Girls in the other departments are beginning to clamor for continuous music also.

Ragtime and jazz, by the way, have been found harmful and are banned. Only rolls "of a semi-classical nature" are used, says the foreman.

This sounds like a wonderful discovery, but one who is better versed in the effects of music than these girls or the business men who employ them is led to wonder whether it has not another side, less advantageous in the long run.

Musical so used is a powerful stimulant. But like any other stimulant, it has its reaction, and is apt to end in jangling the nerves of those who must listen to it so steadily. There are laws of vibration at work there which are too little understood.

A half hour of music to start the day could have none but good effects. Use of the piano at the lunch hour and for half an hour thereafter would be refreshing. But the steady grind of the player must, in time, become extremely wearing. It is an experiment that may be well watched with interest and without prejudice. If at the end of a year the results are still good, then it may well be emulated. But it would not do to decide upon its merits too quickly.

ATHLETICS REPLACE WAR.

Another expedition of husky young Americans will start for Europe soon. It will be much smaller than the one that went to fight the Germans, and its mission is one of peaceful competition. It is the American representation at the Olympic games, to be held in Antwerp.

The renewal of those ancient games is in itself an event of worldwide significance. Revived in Athens in 1896, after nearly 2,000 years of desuetude, and discontinued after 1912 because of the war, they are now a veritable festival of peace. Previously they have been held in Athens, Paris, St. Louis, London and Stockholm. Antwerp, the historic Belgian capital, richly deserves the honor now, and the games will be all the more impressive because they have the world-war for a background and because the nation acting as host has emerged from the war with such honor.

The United States should send her best, for her own credit and for the progress of mankind. In such international gatherings as these, met for friendly rivalry and practising the impartial justice that governs true sport, is fostered the spirit that should rule the world hereafter.

John D. Rockefeller, at 81, plays a better game of golf than ever. If they don't look out, John D. will go actively into the oil business again, and clean up his monopolistic successor, the British Empire.

NEW YORK LETTER

By O. O. McINTYRE

NEW YORK, July 17.

I was sitting in the park
Just as dusk was falling
And across the Hudson
Was the bewildering beauty
Of the majestic Palisades,
Changing from gray
To a haze of purple,
And in the night air
Was the clinging perfume
Of dew bespangled flowers,
And from out of the skies
A great gull dipped
And skimmed the water,
And far on the other shore
Came the last chug
Of a ferryboat,
And then there was silence,
And soon the moon came up
With a faint yellow glow
And I was all alone,
And I felt like a microbe,
Lost in immensity,
While the lambent light
Of the great heavens
Seemed to meet and blend
With the dark shadows
Of a mystifying city,
And I began to dream
Of things come and gone,
The little old creek
Back of Academy Hill
And the chirp of crickets
And the millions of years
That what we call man
Has been toiling upwards
Impelled by the strange law
That causes the pine
To spring toward the sun,
And of the days
When we dwelt in caves
And hollow trees,
Fighting naked with
The wild beasts of prey,
And away in some shrubbery
Was a gentle buzzing,
And before very long
It came nearer and nearer
And it was a lost bee
Or perhaps a wasp
With a concealed weapon
For it landed on my hand
And then sat down,
And I jumped up
And went right home,
Thoroughly awake,
And everything.

AMERICAN CUP DEFENDER READY.

With the confidence of her crew unshaken and her broken hal-yard, which cost her the first race of the series, repaired, the Resolute, America's cup defender, is ready for the second test against Shamrock IV, Sir Thomas Lipton's entry in the international yacht races. Although the American boat must win three races in order to retain possession of the cup which has been held by the New York Yacht club since 1851, her admirers are confident of the outcome of the series. And even with one race to the credit of the British sloop, the Resolute will enter today's contest on even terms in the betting.

After making the poorest start ever made by a Lipton boat since the Irishman has been attempting to win back for Great Britain the trophy cup, the Shamrock IV crossed the line a winner in the first race of the year's series. The British boat was accorded the honors as a result of an accident. Victory seemed certain for the American yacht when her rigging collapsed.

Sir Thomas Lipton, whose sportsmanship characteristics have made him a favorite with the American people, was reluctant to take the credit for a victory won on what he termed a fluke. He was willing to have the race sailed over, but the New York Yacht club refused to consider such a protest. This stand was taken because it was recalled that the first Shamrock was forced to withdraw by a broken sail in the race against the Columbia, the American sloop, in 1899.

Americans are confident that the Resolute will be the winner in today's race. A defective piece of construction cost the New York Yacht club the initial contest, while the Shamrock stood the strain of wet canvas and thrashing sea. But the series is far from the finish. The green boat has the advantage of one victory to her credit, but must win two more contests out of a possible maximum of four in order that Sir Thomas Lipton's dream of almost a lifetime may be realized. With ordinary weather, the prediction of the United States weather bureau for today's contest, prevailing, the Resolute should prove her supremacy.

MUSIC AND WORK.

A good many experiments have been made during the last few years with the effects of music upon mind and body. In hospitals and sanitarians it has been found usually of beneficial effect, and particularly so with the mental sufferers. Brisk music, vigorous and highly rhythmic, is found to stimulate, while soft and dreamy music, of the nocturne or lullaby type, soothes, quiets, often induces sleep.

Industrial plants have been taking up the idea with a good deal of success. The piano used in the recreation room at the lunch hour for dancing or for chorus singing has always had a brightening effect upon the workers.

It has remained for a great plant in Delaware to carry this idea to an extreme. A piano has been installed in the wrapping department, where the girls are on piece-work, and it is in use continuously during working hours. Production in this department has increased 20 per cent. And the employees have a better time while doing more work. Girls in the other departments are beginning to clamor for continuous music also.

Ragtime and jazz, by the way, have been found harmful and are banned. Only rolls "of a semi-classical nature" are used, says the foreman.

This sounds like a wonderful discovery, but one who is better versed in the effects of music than these girls or the business men who employ them is led to wonder whether it has not another side, less advantageous in the long run.

Musie so used is a powerful stimulant. But like any other stimulant, it has its reaction, and is apt to end in jangling the nerves of those who must listen to it so steadily. There are laws of vibration at work there which are too little understood.

A half hour of music to start the day could have none but good effects. Use of the piano at the lunch hour and for half an hour thereafter would be refreshing. But the steady grind of the player must, in time, become extremely wearing. It is an experiment that may be well watched with interest and without prejudice. If at the end of a year the results are still good, then it may well be emulated. But it would not do to decide upon its merits too quickly.

ATHLETICS REPLACE WAR.

Another expedition of husky young Americans will start for Europe soon. It will be much smaller than the one that went to fight the Germans, and its mission is one of peaceful competition. It is the American representation at the Olympic games, to be held in Antwerp.

The renewal of those ancient games is in itself an event of worldwide significance. Revived in Athens in 1896, after nearly 2,000 years of desuetude, and discontinued after 1912 because of the war, they are now a veritable festival of peace. Previously they have been held in Athens, Paris, St. Louis, London and Stockholm. Antwerp, the historic Belgian capital, richly deserves the honor now, and the games will be all the more impressive because they have the world-war for a background and because the nation acting as host has emerged from the war with such honor.

The United States should send her best, for her own credit and for the progress of mankind. In such international gatherings as these, met for friendly rivalry and practising the impartial justice that governs true sport, is fostered the spirit that should rule the world hereafter.

John D. Rockefeller, at 81, plays a better game of golf than ever. If they don't look out, John D. will go actively into the oil business again, and clean up his monopolistic successor, the British Empire.

NEW YORK LETTER

By O. O. McINTYRE

NEW YORK July 17.—

I was sitting in the park

Just as dusk was falling

And across the Hudson

Was the bewilder beauty

Of the majestic Palisades,

Changing from gray

To a haze of purple,

And in the night air

Was the clinging perfume

Of dew bespangled flowers,

And from out of the skies

A great gull dipped

And skimmed the water,

And far on the other shore

Came the last chug

Of a ferryboat,

And then there was silence,

And soon the moon came up

With a faint yellow glow

And I was all alone,

And I felt like a microbe,

Lost in immensity,

While the lambent light

Of the great heavens

Seemed to meet and blend

With the dark shadows

Of a mystifying city,

And I began to dream

Of things come and gone,

The little old creek

Back of Academy Hill

And the chirp of crickets

And the millions of years

That what we call man

Has been tolling upwards

Impelled by the strange law

That causes the pine

To spring toward the sun,

And of the days

When we dwelt in caves

And hollow trees,

Fighting naked with

The wild beasts of prey,

And away in some shrubbery

Was a gentle buzzing,

And before very long

It came nearer and nearer

And it was a lost bee

Or perhaps a wasp

With a concealed weapon

For it landed on my hand

And then sat down,

And I jumped up

And went right home,

Thoroughly awake,

And everything.

RESOLUTE FIXED FOR SECOND RACE

Will Sail Over Triangular Course, 30 Miles Per Leg—Expect Record Crowd.

BY JACK VEICK

SANDY HOOK, N. J., July 17—via wireless—Everything is set for the staging of the second international yacht race for the America's cup today.

The defender Resolute, with new and staunch throat halyards, is as spick and span as ever and her skipper and crew hope to demonstrate before sundown that the white sloop does not even need the time allowance granted her by Shamrock IV.

Fair weather was the order today. With the first gray streaks of dawn watchers at Sandy Hook were relieved to note scattering, fleecy clouds and the weather prophet predicted gentle variable winds along with the sun.

The time allowance has been worked out once again. H. De B. Parsons, chairman of the race committee of the New York Yacht club announced that following new measurements of the Shamrock which reduced her rat-

ing from 94.4 to 93.08, the time allowance has been definitely set at six minutes, 40 seconds.

The second race today was scheduled to be sailed over a triangular course. The length of the race will be 30 miles, 10 miles to a leg.

This is the sort of contest that should, and probably will, bring out all points of sailing qualities of the two yachts and if the weather permits a mild breeze holds true this race should be much to the liking of Resolute.

If possible the yachts will be sent away on the windward leg of the triangle, and then the remaining two legs. If nothing happens in the weather market to interfere with the usual method of sailing such a race, will be close reach and a broad reach, or a run before the wind.

The very latest modes in sails of all kinds were expected to be flashed by the rival yachts in today's race, from main sails, jibs, stay sails, top sails and spinnakers to balloons.

With bright weather the order early today there were every indication that the crowd aboard pleasure yachts, excursion steamers, tugs, motor launches and craft of many other kinds will be much larger than that of Thursday when 10,000 spectators saw the initial brush between the sloops.

For 60 years Oxford and Cambridge were the only universities in England.

NEWELL TRIMS SMITH'S FERRY

Heavy Clubbing of Newell Team Too Much for Visitors.

The effective hitting of the Newell club last night proved too great an obstacle in the way of the Smith's Ferry nine's winning and the Pennsylvanians went home with a 4-3 defeat chalked up against them.

The largest crowd of the season turned out last night to watch the West Virginians trim the Ferrians. Hoy and Dreddinger pitched good ball all the way through, each club getting four safeties.

The score: R. H. E. Newell 4 4 3 Smiths Ferry 3 4 0 Batteries, for Newell, Hoy and Dreddinger; for Smiths Ferry, Derringer and Hays. Two base hits, Simcox, Marshall, Riser and Potts. Home run, Dickey.

PRINTER GAME IS POSTPONED

Second Contest of Series Will Likely be Played in Two Weeks.

The second game in the series of three between the Newspapermen's ball club and the nine promoted by the job printers of the city, with a banquet at stake, has been postponed for two weeks, it was announced Friday.

The second and deciding contest in the series was to have been played off this afternoon at West End park, but owing to the absence of several regulars on both the newspapermen's and printer's squads, it was found necessary to determine upon a later date.

In the initial fray the printers took honors by the score of 11 to 7. If the printers win the next clash they will be entitled to a "feed" at the expense of the newspapermen. It is likely that July 31 will be the date set for the deciding game.

Liberty A. C. Determined to Trim Steel Town Club Tomorrow.

In their second meeting of the season the Liberty A. C. of East Liverpool and the Industry (Pa.) club will attempt to settle all claims to supremacy tomorrow afternoon at West End park.

The recently reorganized Pennsylvania nine gained the decision over the locals in a game staged several weeks ago at Industry in which the score was 7-6. Although a decision is a decision after the umpire makes it known, the Liberties are of the belief that they were kept from showing their best on account of questionable judgements by the Industry arbitrators.

When they take up the battle again tomorrow at West End park, the Liberty aggregation is confident that the tables will be twisted. The game is scheduled to begin at 3 o'clock.

JIMMY JONES WILL SEEK THE BIG ONES

Mickey Stambaugh, matchmaker of the boxing club of Youngstown, and manager of Jimmy Jones, Alliance welterweight, now declares Jones is ready to tackle topnotchers of his division of fistiana.

Jones has been with Stambaugh for more than half a year, and he hasn't been defeated in that length of time. Last week at Warren, Jones planted a terrific smash on the jaw of Dutch Powell of Barberston, and Powell thus was added to Jones' list of victims. The blow was delivered in the third round of a scheduled 10-round bout.

Jones floored Powell in less than two minutes of the first round, using a right cross. Powell thereupon became cautious, but he couldn't withstand Jones' attacks.

U. S. ENGINEER TRANSFERRED TO PITTSBURG

Promotion of Lieut.-Colonel Markham Applauded by Canal Boosters.

NOW AT DETROIT, MICH.

To Revive Move to Select Beaver River Routing for Canal.

Transfer of Lieut.-Col. Edward M. Markham, U. S. engineers, from Detroit, Mich., to Pittsburg, Pa., is looked upon favorably by sponsors of the proposed Ohio River-Lake Erie ship canal, as it was learned here Saturday.

Colonel Markham's transfer becomes effective August 10.

Colonel Markham demonstrated his efficiency in inland waterways work through his efforts in behalf of the Great Lakes ship canal. His transfer is in a sense a promotion as the Pittsburg post requires a man of ability, high army officers say.

With the coming of Colonel Markham, the move to secure the selection of the Beaver river routing for the Ohio River-Lake Erie ship canal will be revived. Data seeking to establish the superiority of the local route over the two middle and extreme western Ohio routes for the river-Great Lakes waterway will be laid before Colonel Markham immediately upon his arrival.

nan, state prohibition commissioner, and Charles Lively, of Parkersburg, federal prohibition commissioner, of West Virginia Friday regarding the use of pure grain alcohol by physicians, dentists and veterinarians. The federal prohibition department is contemplating discontinuing the issuing of permits allowing the use of grain alcohol, inasmuch as it violates the state law.

Agreement was reached several months ago between the two prohibition commissioners that no prosecutions would follow by the state department for the sake of harmony in law enforcement, but the question has again been raised by the federal department as to whether such action would be binding upon the courts of the state. Mr. Hallahan favors continuing the use of permits.

Organize Cox Club

The first Cox club in West Virginia was organized at Huntington recently with H. C. Warth as president and Warren C. Smith as secretary. The following telegram was sent Governor Cox of Ohio: "The first Cox for President club in the State of West Virginia was organized in the Fifth ward, Huntington, tonight. All are enthusiastic and will confidently work for your election in November."

SUNDAY SCHOOL PICNIC
AT THOMPSON PARK

The Sunday schools of the Second Presbyterian and Second United Presbyterian churches of East End will hold a union picnic at Thompson park next Wednesday.

The athletic program, including foot races, jumping contest and a tug of war, will be featured in the morning. The afternoon features will include a baseball game played between the teams representing each Sunday school.

Dinner will be served in the pavilion at noon and supper at 6 o'clock. A band will furnish music throughout the day.

SET DATE FOR DUAL
ATHLETIC MEET HERE

Wednesday, August 4, is the date set for the dual athletic field meet at the East End play grounds between the boys of the down town and East End lots, it was announced Friday by Miss Margaret Rice.

The program will include ten field and track events. Each playground will be allowed three entries in each event. A baseball game between the boys of the two playgrounds will be one of the features.

The two playgrounds will close on August 21. It had been planned to keep them open until Sept. 15, but lack of funds makes it necessary to close early. The playground fund, created largely through the proceeds of the Tag Day sales, is practically depleted, it is said.

A schedule of baseball games has been arranged by James Davis, in charge of the East End lot. Teams representing the both playgrounds will compete to determine the playground championship. Games will be played on Monday, Wednesday and Friday of each week.

GIRL NARROWLY ESCAPES
DROWNING IN RIVER

Miss Ruth Bland, aged 21, daughter of Mrs. Maud Bland, of East Fourth street, narrowly escaped drowning in the river at the foot of Putnam street, East End, Friday afternoon, when she was knocked unconscious by being struck in the head with an apple while bathing.

Miss Bland's companions were us-

ing a hard green apple in a game of "catch." The apple struck her a blow on the head, the girl sinking in about ten feet of water. Young men who were in the party swam to the spot where the girl disappeared. Diving under the water, they rescued her.

She was taken to the home of William Copstick in Putnam street, where efforts to revive her were unsuccessful. Dr. M. D. McCutcheon later resuscitated her.

S. E. Bauman, Pennsylvania avenue, was a Salem visitor Friday.

Earl Waggle, Pennsylvania avenue,

has concluded a visit with friends in Cleveland.

L. Goldsmith of Pittsburg is calling on East End friends today.

Woman In Bed Six Months; Two
Bottles of Reese Formula R-11
Put Her On Her Feet Again

Tells of Her Experience in Statement to the Public

Miss Calie Stevens, who lives at Eleventh and Lorraine Streets, Iron-ton, Ohio, was a victim of rheumatism in its worst form. She was confined to her bed for six months with doctors in attendance. After taking two bottles of the Reese Formula R-11, she was able to leave her bed and get about the house where she still continues to improve.

Miss Stevens in a statement says: "I have suffered with severe pains in my back and arms and limbs and was confined to my bed for six months. After the doctor had completely failed to give me relief I began taking The Reese Formula R-11. After the second bottle I was so much better that I was able to go down stairs to my meals. My appetite has improved and I feel better in every respect. I want to recommend The Reese Formula R-11 because it has worked wonders in my case after I had given up hope."

If you suffer from rheumatism, indigestion, nervousness, biliousness, lumbago or stomach, liver and kidney trouble in any form, I will do for you what it has for others in this city and elsewhere.

If you wish further information, write direct to our Medical Advisor, Medical Department, The Reese Formula Co., Huntington, W. Va.

"The Family Honor"

HIS FIRST INDEPENDENTLY PRODUCED
PICTURE FOR FIRST NATIONALWhen He Faced Death
He Turned to a Girl

The scion of an aristocratic family, he wastes the family fortune in drinking and gambling. Impoverished, he refuses honest work, and starts a gambling table. He spurns a girl, who is stung with shame, her romance shattered. Comes a night when a man is murdered in the gambling den. Hunted by the law, facing the gallows, he turns for protection to this girl—And her love and influence brings a wonderful ending.

A Picture the Whole Family Will Love

The story of everyday people and the homely realities of life pictured with a thrill and yet with the simplicity and beauty of the videlic style—a picture that sharply contrasts right thinking and right living with false pride and evil deeds—a picture with a GREAT THOUGHT.
